

My name is Cindy Crowe and I am married to Tony Crowe who is running for Post 4 Commissioner. I was reluctant to support Tony's candidacy because of how ugly politics can be.

I eventually agreed to support his decision to run because I feel our county needs a good, honorable, decent man like Tony.

This campaign has been extremely hard on our family. Recently it has come to my attention that Tony's opponents have rumored that Tony did not do military service. It is a shame that politics have come to this and I have had enough..

Like most veterans, Tony is reluctant to talk much about his experience in Vietnam. But I am not. Tony served his country proudly when some refused to go. It is interesting to me that his accusers never served our country in the military.

Fortunately for me, Tony survived the explosion on the USS Enterprise although many others did not.

To this day I enjoy looking at his military album. He was so young, seventeen. Even at that young age he had integrity and courage to make that commitment to our country and I believe that is what Paulding needs today.

For those of you who still doubt his service I have copied his DD two 14 which is pictured below.
